## French Long Term Overview

There are three progressive levels to Language Angels. Early, Intermediate and Progressive. This plan is progressive as in lower KS2 the units covered start from Early and end at Intermediate and in Upper KS2 they begin at Intermediate and end with Progressive units. I have also repeated some phonics, numbers and key vocabulary lessons between Lower and Upper KS2 to help LTM.

Most half terms also include some extra sessions found in the core section which have some key vocabulary lessons as well as some phonic knowledge the children need to cover if they are to progress with their speaking and listening skills.

The phonics lessons can be covered more than once in that half term where time allows.

On the plan the information in brackets tells you where to find the lesson on the website.
